OUR KITCHEN

We have designed our kitchen with photography and videography in mind. The 5-ring induction hob is positioned on the central island and the wall behind is perfect for styling. The exposed brick wall on the opposite side makes an excellent backdrop. Bifold doors open onto the garden to give more shooting space if needed.

"I can't recommend Giovanna and Marcus enough. The kitchen space is exquisite, was perfect for our shoot - lovely finishings and had such a gorgeous feel, the light was beautiful. They both couldn't have been more helpful from start to finish - I can't wait to book my next shoot with them."
